URBAN ATLAS

The atlas contains 44 color maps which display data on the physical environment, built environment, demographics, employment, government and urban services. Last *Updated* 7/98

PUBLICATIONS: *Urban Atlas, Phoenix Metropolitan Area* \$19.95

MAG GEOGRAPHIC BOUNDARIES

Traffic Analysis Zones (TAZ), Regional Analysis Zones (RAZ) and Municipal Planning Areas (MPA) are the geographic boundaries used by MAG for socioeconomic projections, traffic forecasting and other planning purposes. The geographic boundaries, which include 1516 TAZ, 147 RAZ and 27 MPA, were created in 1996. Last *Updated*: 1/97

ELECTRONIC COVERAGES: CD ROM or one 3 1/2" disk. \$200.00

1995 SPECIAL CENSUS

On October 27, 1995, MAG sponsored a Special Census for Maricopa County. Enumerators asked seventeen questions to obtain information on population and housing characteristics. Last *Updated*: 9/97

PUBLICATIONS: *1995 Special Census for Maricopa County*

Summary Tables, 9/97 \$30.00

DATABASE: CD ROM or two 3 1/2" diskettes. \$200.00

38 electronic files summarizing the 31 tables from the 1995 Special Census.

ELECTRONIC COVERAGES: CDROM. \$200.00

Set of Census Tracts, and Enumeration Districts boundary files.

GENERAL PLAN LAND USE

The General Plan Land Use coverage, is a compilation of General Plans of MAG member agencies. General Plan Land Use components were classified into 24 categories. The General Plan Land Use coverage is used for a variety of planning purposes, most importantly, the socioeconomic forecasting models. General Plan Land Use should be considered as "potential" land use and not necessarily tied to a particular forecast year. Last *Updated*: 1/97

ELECTRONIC COVERAGES: CD ROM \$600.00

Polygon coverage of General Plan Land Use.

1995 LAND USE

The 1995 Land Use coverage classifies Land Use components into 24 categories. The 1995 Land Use coverage is used for a variety of planning purposes including socioeconomic forecasting and air quality modeling. Last *Updated*: 1/97

ELECTRONIC COVERAGES: CD ROM \$600.00

Polygon coverage of 1995 Land Use

MAGNET STREET CENTERLINES

MAGNET is the street centerline file maintained by the Maricopa Association of Governments. This file contains theoretical address ranges, and is continually updated by MAG staff. Last *Updated*: 12/99

ELECTRONIC COVERAGES: CD ROM \$600.00

Line coverage containing approximately 135,000 arcs.

RESIDENTIAL COMPLETIONS

Residential Completion data is provided to MAG by member agencies on a quarterly basis, then processed and geocoded by MAG staff. The Residential Completion database contains a record for every residential completion in Maricopa County from April 1, 1990 (1990 Census date) through June 30, 1999. Last *Updated*: 12/99

DATABASE: Database available in .dbf format on CD ROM or 3 1/2" disks.

Price: \$100.00 per quarter, \$250.00 per year, other on request.

ELECTRONIC COVERAGES: CDROM Price same as database.

Point coverage of residential completions.

SOCIOECONOMIC PROJECTIONS

MAG produces projections of total resident population (with household/group quarter subtotals), resident housing units (with occupied/ vacant subtotals), total employment, transient population and seasonal population for Maricopa County. These projections use July 1, 1995 as a base with projections in five year increments to year 2020. The data is summarized by Traffic Analysis Zone (TAZ), Regional Analysis Zone (RAZ), and Municipal Planning Area (MPA). Last *Updated*: 7/97

PUBLICATIONS: *Socioeconomic Projections - June, 1997* \$30.00

DATABASE: CD ROM or one 3 1/2" diskette. \$200.00

Database containing 1,516 records. Includes 16 page set of boundary maps.

EMPLOYMENT LOCATIONS

The Employment Location database consists of locations, number of employees and SIC codes for every employer of 5 or more persons in Maricopa County as of July 1, 1995. Last *Updated*: 9/96

PUBLICATIONS:

MAG Employment Database - Executive Summary \$5.00

MAG Employment Database - Final Report \$10.00

DATABASE: CDROM. \$400.00

Database containing 37,266 records of employers of 5 or more persons.

ELECTRONIC COVERAGES: CDROM. \$400.00

Point coverage of employment locations containing 37,266 points.

DEVELOPMENT AREAS

The Development database contains information on active, planned and proposed development projects in Maricopa County as of July 1, 1995. The Development Area map displays developments of 500 acres or more. The database and electronic coverage contain information for all developments identified as MAG Development areas. Last *Updated*: 5/97

PUBLICATIONS:

MAG Development Database - Executive Summary \$5.00

MAG Development Database - Final Report \$40.00

DATABASE: CDROM. \$300.00

Database contains development area data. (Includes copy of *Final Report*)

ELECTRONIC COVERAGES: CDROM. \$600.00

Polygon coverage of development areas. Includes publication and database.

MAG DESERT SPACES PLAN

The Desert Spaces Plan identifies and recommends conservation and management strategies for natural resources and open spaces critical to the quality of life in Maricopa County. Last *Updated*: 1995

PUBLICATIONS:

Desert Spaces Plan (b/w maps) \$13.00

Desert Spaces Plan (color maps) \$33.00
